Did anyone cover this when it was announced on October 3rd?

https://www.youtube.com/redirect?redir_token=o4jctHfXk7E_OAqktMUGV3ETWbp8MTU3MDQ1NzQyN0AxNTcwMzcxMDI3&v=9PqmG_y1mEA&q=https%3A%2F%2Fwww.marines.mil%2FNews%2FMessages%2FMessages-Display%2FArticle%2F1979422%2Fmanpower-guidance-for-activation-and-deactivation-of-reserve-component-marines&event=video_description

I know these orders are legit because I'm a Navyfag and I've seen plenty of orders in my time of service. That fact that these are being published now indicates to me that something is about to go down within the US. The Marines are the only force that the President can directly control in emergency situations. So for the Reserves to be getting called up tells me the President is getting ready for something big.

I don't know what for sure, but I would venture a guess and say that there are probably going to be some big name arrests before the end of the year, which will more than likely lead to massive riots, revolt, or similar on the part of the Leftists. It will be a last ditch effort to get rid of Trump before their house of cards completely tumbles.

There isn't a lot that the Marine corps could do that'd be relevant to an actual widespread national emergency.

This would probably relate to the border in some way, or perhaps more likely, they're preparing for a conflict where a 5th column might already exist in the CONUS, such as the IRGC cells or the vast network of Chinese loyalists (Chinese restaurants being part of the spy/distribution network, for instance). The Marines could potentially be useful in those limited cases but not much else.

This isn't actually for new domestic happenings. Marines have been acting in a support role along the border for awhile now, it helped with the border but fucked readiness, now the reserve is being activated to take over for them since they're already sitting home doing nothing.

Bullshit. The President is Commander in Chief of the entire US military. He can issue orders to any branch, and they are like any orders from a superior officer for every member of that branch: they must be obeyed unless they're illegal.

If something strange was going to happen and the USMC were required, then there are two active duty divisions and two air wings in the USA and one (under strength) division and air wing scattered around the Pacific.
The USMC Reserve is one under strength division and air wing scattered around the whole country... it would not be able to do jack shit by itself.

There is no way in hell the Marine Corps reserve as a hole was called up. There would be a shit ton of stories locally and nationally.

Nope. The USMC is a department of the Navy. The USMC operates through the Secretary of the Navy's control within the Department of Defense.
The Commandant of the USMC only has limited duties regarding the safety and training. As far as operational control, well that is a whole different can of worms. Operational control is determent based on the area of Command. In North America it would be US Northern Command (currently lead by an Air Force General). Of course, the whole command structure can be changed, but it does not change the fact the USMC is a department of the Navy.
Technically everyone in the Military answers to everyone above them in the chain of command, which stops at the President. That means everyone operates under the direct command of the President.
Cut the stupid shit retard. It is tiresome.

This Q fantasy of the military arresting politicians is retarded. Washington DC is filled with politicians who should be arrested but you can't go arresting democrats with the military in this country. The media will never ever cover them in a negative light no matter what they are guilty of, if Trump starts using the military to arrest people Congress will freak out, the media will freak out and half the country is going to riot. Soros will have all the niggers in all major cities rioting just because they want free shoes. Trump isn't stupid, he knows what will happen if he goes outside of normal legal channels to arrest people. The media will go on tv and claim Trump is abusing his power like a dictator. Even if the Clinton's and FBI staged a coup they are entitled to due process. They aren't going to be executed without a fight, and you know Hillary will fight. Look at how weakly they handled Epstein, they let the fucker get murdered and dropped the case. You guys have to get this fantasy of the Clinton's ever being sent to Guantanamo Bay out of your heads.

bump. Literally the most important thread on pol right now. SHIT WILL HIT THE FAN REALLY SOON.

The deep state is very nervous about the document dump and the IG Report. They know their whole party is implicated in massive amounts of treason and a lot of their constituents will be under investigation, some of them locked up. The fake news won't be able to cover for them because the crimes are too obvious and horrendous to try to damage control. Massive amounts of people will get redpilled very soon. Soros and the deep state will activate antifa and MK Ultra subjects to start mass civil unrest and riots to try to start an insurrection and prevent people from learning the truth.

POTUS just activated the Marines to assist local and state authorities when this happens. POSSE COMITATUS ACT.

Screencap this post. It's all going to happen this Fall/Winter.

>I don't have faith that anyone is ever going to get arrested for the coup. The FBI is thoroughly corrupt and feckless. They are doing everything they can to get Trump out of office. They are afraid he's going to expose them. They are probably being blackmailed by Israel through Epstein. The CIA has sent spies to the White House to get Trump through his phone calls. They are scared of something. It shows you they want to protect the status quo no matter what the cost. They have no interest in prosecuting democrats. Horowitz will release his report in a couple of weeks but it's up to Barr to prosecute and I think he's going to let Comey and Mccabe walk. Mccabe might see a charge but I have no faith that any of them are ever going to see jail time.
>>228956562
I was here for that post, I don't believe that the person who wrote that is the same Q that has everyone convinced that all these democrats are going to be arrested. Do you believe McCain was actually executed behind closed doors? You don't think his family would have wanted the trial out in the open so his could win public favor. They would have gone to the media claiming Trump had McCain murdered over politics like a dictator. It's all fantasy, Q makes you think he can predict the future. He knows 2 years in advance that the marines are actually going to arrest Clinton. Do you really believe that, that's if anything happens this month.

All based on the Durham/Barr investigation into the origins of the Russia probe. It was not a real investigation, it was manufactured by the CIA, the White House, D Party Hilary, a few other traitors and the product of foreign countries under the orders of Obama. They created the whole basis for the investigation then started it all for the initial purpose of spying on a candidate to make sure he loses, then used as a basis to block that president's term as well as try to overthrow him through a fake basis. They knew there was no Russian interference, they only used it to try to get POTUS to fire Rosenstein or Mueller to create a fake "Obstruction of Justice" charge on him.

So, if I'm understanding the timeline correctly, the Marines put out a message Oct 3 calling up Reservists to assist civilian authorities in the event of civil unrest/emergencies; then, cancels the message Oct 4. Seems odd.

Why release a message that tells people to start making plans to get activated, then recall it?

If this message was put out as a mistake, was it meant for a future date instead?

Was this a mistake? Or was this a shot across the bow to the deep state/dems/jews/whoever?

Or, was it a message to those of us who've been paying attention that shit's about to get real?

So many questions. I'm not sure how to read this one.

Armored vehicles and cargo as far as the eye can see. Sister is up north near Montana and had two chinooks land in a field in front of them last week. We've also had an absurd amount of oil storage and a refinery basically show up overnight near the train tracks. Something is changing.

Hab 1:2-3; 2:2-4
How long, O LORD? I cry for help
but you do not listen!
I cry out to you, "Violence!"
but you do not intervene.
Why do you let me see ruin;
why must I look at misery?
Destruction and violence are before me;
there is strife, and clamorous discord.
Then the LORD answered me and said:
Write down the vision clearly upon the tablets,
so that one can read it readily.
For the vision still has its time,
presses on to fulfillment, and will not disappoint;
if it delays, wait for it,
it will surely come, it will not be late.
The rash one has no integrity;
but the just one, because of his faith, shall live.

Deep state was working with china to destroy our water using fentanyl. Theres no reason there should be so much being imported into our country.
https://thefreethoughtproject.com/fbi-busts-massive-fentanyl-ring-running-out-of-dept-of-consumer-and-regulatory-affairs-in-d-c/

I have an inkling New York's water supply is going to be a main target if not the first target.

https://www.foxnews.com/story/islamberg-a-terror-compound-in-new-york-or-misunderstood-neighbors

These muslims live next to the entire supply of New york water. This is why its a big deal. With a few KG's of fentanyl they could kill 10 million new yorkers in a single day.

Someone should look up any information to Seattle's public water supply, with that whole Nov 3'rd shit going around and if there are any connections.

The same thing seems to also be happening in Russia? Survival Russia's friend just got a new contract with the marines.

That's not an activation. That's just guidance for what to do in the event of an activation. You're being paranoid and/or a liar.

Unless you are in Santa Barbara, NAS Lemoore is east of you and they are flying everything in the inventory.
Add in 29 Palms and you should be seeing flights daily.

Our small National Guard unit was activated with orders to deploy to somewhere in the ME, possibly UAE.

Interestingly enough, it wasn't covered in the local news. Now, we're a small town, If someone loses a bike it's in the news.

There was a facebook notification, in a local news focused group, inviting people to the activation ceremony at the local High School, and now I can't find the post.

This is what it seems to be. Using Marine units to help with border security and construction. We have had soldiers reinforcing walls for quite a while now. Because the border crisis is an ongoing national emergency, it is most likely what it is. Or beefing up our domestic army just in case.

Read the order. It's not an activation. There's nothing going on. The government wouldn't use reservists for that anyway, there's plenty of active Marines for that if they wanted to use them.
